

## **The Almighty Dragon General Chapter 955**

Thea realized that Celestial, Longevity, and other large groups' declaration about leaving the industry caused a series of chain reactions that in turn affected the Callahans' company, Eternality.

Thea and James did not linger a second longer and left posthaste.

Soon, they arrived at Callahans' villa. It was early in the morning, but almost all Callahans' family members were gathered in the villa.

The air was thick with worry and uncertainty.

Thea and James hurriedly walked over to them.

The Callahans quickly grasped at their lifeline.

"Thea, you're finally back!"

"Thea, the Callahans need you to take charge and save us from this situation."

The Callahans stepped forward and began bombarding Thea with their desperate pleas and demands.

Meanwhile, James was completely ignored.

Thea asked, "Grandpa, is it true that Celestial, Longevity, and other major groups have announced their withdrawal from Cansington and the pharmaceutical industry? Did you call me because the Callahans were affected by this sudden shake-up?"

"There's more to it."

Lex sighed despondently.

"You should sit down first."
