

The Almighty Dragon General Chapter 983

James knew that Madelyn did not intend to kill him but only wanted to use the soldiers to threaten him.

"Of course, I'll keep my word."

Madelyn smiled and whispered to the four middle-aged men beside her, "Don't go all out on him. We can't kill him."

The Four Guardians nodded.

Immediately, one of them stepped forward. He raised his arms, and a powerful force surrounded him, causing the fallen leaves around him to flutter in the air.

A lot of fallen leaves gathered and rotated together into an energy ball.

He stared at James and said, "Are you ready, James?"

James closed his eyes. He concentrated on the Invincible Body Siddhi recorded in the medical book.

James knew that he could not sustain four blows from the Four Guardians, but for the sake of the Blithe Army's soldiers, he had to. He circulated his energy and channeled it throughout the meridians of his body.

James' complexion showed slight changes, turning slightly bronzy.

"Hmm?"
