

Looking at the black leather bag, there are four or five circular holes all over the body, presumably they are holes dug for the lens of the sports camera.

It's just that the lens and purse are black, and Hong Changqing's attention has not been on Xyla, so he didn't notice it at all.

Only now did Hong Changqing realize that this kid had set up a three-headed trap for himself!

If I agree to compete again, then these dozen or so women will definitely let me out, and the ages of the dozen or so people can't be guessed correctly, which will indirectly prove that I cheated yesterday, and I will be ruined by then;

But if I don't agree, then this kid will go back and upload the video on the Internet, and I will also be ruined; the

key is that I can't kill and silence, so many people are watching, if I really kill and silence, I am afraid that I will be wanted by the whole country immediately. If I escape from China by myself, I am afraid that I will be wanted all over the world, and my reputation will also be ruined.

Only then did Hong Changqing realize how sinister the kid's intentions were!

So, he thought carefully in his mind, "If I'm tough with this kid, I won't be able to escape the fate of being ruined. Instead of doing this, I might as well shake hands with him and make peace with him. In that case, Serene Medical Clinic will fly away!" , I don't have any other losses..."

Thinking of this, Hong Changqing pursed his lips, and pretended to be magnanimous and said,

"That's all, I see that your kid is deliberately doing this, just to help that Dr. Simmons and save the world. I, Hong, will be more magnanimous today, and I will return this Serene Medical Clinic to Dr. Simmons, I don't want it anymore!"

After finishing speaking, he stroked his beard with one hand, and lifted his long gown with his hands behind his back, arrogantly The next step is to go out.

How could charlie let him fool him, and stood in front of him, sarcastically saying, "Old man, don't run away in a hurry, you designed to frame Miracle Doctor Shi yesterday, which has affected Miracle Doctor Shi's reputation in Aurous Hill, now you pat How could such a cheap thing be possible?"

Hong Changqing panicked immediately, and asked him, "Then what do you want!" At

this moment, Hong Changqing regretted staring at Dr. Simmons's Serene Medical Clinic!

He didn't expect that this matter would put him in such a passive state earlier.

So now that I want to raise my hand and surrender, the other party refuses to let me.

charlie looked at Hong Changqing at this time, and said with a smile, "I heard from Doctor that you made a bet with Doctor yesterday, and the bet was a medicine cauldron. I see that bulging cloth bag on your body. Could it be it? "

Hong Changqing took a step back in fright, covered his cloth pocket, and blurted out, "You want my medicine cauldron?!"

charlie smiled and said, "Hey, you are wrong to say that. How can it be said that I want it? Obviously you used it as a bet yesterday, but you cheated on yesterday's bet. It stands to reason If you lose, you have to admit it. If you admit it, you have to take out the bet. Is there any problem with what I said?"
