

The advantage of this is that even if there are many medicinal materials, as long as there is sufficient aura, they can be refined at the same time.

However, what charlie is a little puzzled at the moment is that the medicine cauldron is not that big, and the capacity seems to be able to hold two or three catties of medicinal materials. In this way, wouldn't it be possible to refine only one elixir at a time?

After all, charlie had never used the medicine cauldron to make alchemy, so he decided to try it with a little medicine first.

Afterwards, he put about three catties of medicinal materials into the medicine cauldron, and then transferred the aura into the medicine cauldron, mobilizing the medicine in the medicine cauldron. The formation works.

Immediately afterwards, he felt that the formation in the medicine cauldron began to rotate at a high speed, and as soon as the formation started to operate, the full medicinal materials were instantly sucked in by the formation, and the formation was like a black hole, instantly dispelling these medicinal materials. Devoured without a trace.

charlie couldn't help being startled, he didn't expect that this formation was so powerful in consuming medicinal materials, so he quickly allocated more energy to put more medicinal materials into it, and the medicine cauldron took them all as ordered, devouring them all.

In the blink of an eye, twenty or thirty catties of medicinal materials were completely swallowed up, and the formation was still running fast, with no intention of stopping.

charlie didn't dare to slack off, and could only continuously pour in spiritual energy into it.

charlie saw that the battle of the medicine cauldron devouring the spirit energy was similar to the cheating ring that Lin Wan'er (Alani) gave him, so he couldn't help feeling a little nervous, afraid that this thing would be like that ring, sucking out his spirit energy like crazy.

The formation rotated rapidly, and in the very center of the formation, soon there were some small spherical objects that were continuously condensing and growing.

Fortunately, the blood-scattering and heart-rescuing pill is not a high-grade pill, and it is not difficult to refine, so the high-speed operation of the formation only lasted for a minute, and then slowly stopped.

charlie finally breathed a sigh of relief when he saw that the formation no longer needed his own aura to drive it. Although it absorbed the aura very quickly just now, because the time was relatively short, it didn't consume much aura.

Immediately afterwards, the formation began to slow down slowly, and charlie could feel that the spherical objects in the center of the formation were now about the same size as ordinary pills.

The moment the formation stopped, the spherical object inside finally revealed its real body. charlie looked inside the medicine cauldron, and what lay inside were twenty new-product pills with a faint golden luster!
