

In the past, the Sanxue Jiuxin Pills had a black and shiny appearance, like chocolate beans that children love to eat, but this was the first time Charlie saw a golden pill.

He took out the elixir from the medicine cauldron, looked carefully in front of him, and could clearly feel that the aura emanating from this elixir was much stronger than the previous Scattering Blood and Rescuing Heart Pill, just the elixir emitted the scent gives people a more mellow feeling. Charlie put the elixir into his mouth, and the pure and surging medicinal power quickly flowed all over his body. The blood-scattering and heart-rescuing pill does not contain aura, so it does not help his cultivation much, but Charlie can still clearly feel that this The new Sanxue Jiuxin Pill is about twice as effective as the previous version!

What's even more rare is that the new Blood Sanxue Jiuxin Pill is not only more effective, but also seems to be more pure in efficacy, both horizontally and vertically.

The purer the effect of the medicine, the qualitative change will be achieved. Therefore, Charlie speculates that if this new Sanxue Jiuxin Pill is given to ordinary martial arts practitioners, the stronger and more pure medicine will definitely make people feel better. Its dantian meridians and even the whole body have been greatly improved, and the actual comprehensive medicinal effect may be comparable to the previous three blood-scattering and heart-rescuing pills.

With the same quality and weight of medicinal materials, the number of elixirs refined has not changed, but it is because of the function of this medicine cauldron that the effect of elixirs has been greatly improved, which makes Charlie very excited.

He couldn't help muttering to himself, "I don't know if Huichun Pill and Peiyuan Pill can have the same effect when refined with this medicine cauldron. If the efficacy of Huichun Pill is doubled, wouldn't it be able to prolong a person's life for forty years? The medicinal effect of Yuan Dan is doubled, which means that the aura contained in it will also be doubled, and for me, it is definitely the best choice to replenish aura." Thinking of

this, Charlie couldn't help but sigh, "It's a pity that the last time I was born in Xuanfengnian The ten-thousand-year ambergris I got on me has been used up, if I want to refine a new Peiyuan pill, I have to find a new way to find a piece of ambergris of the same quality." Immediately, Charlie gave Mr. Quinton, Isaac Cameron, and Wannian a piece of ambergris

. Abbas called separately and asked them to keep an eye out and see if there was any high-quality ambergris for sale in various markets. If so, they must take it down at any cost.

After informing the three of them, Charlie called Xion.

When the phone was connected, Xion asked respectfully, "Mr. Wade, what do you want from me?" Charlie asked her, "Xion, where are you?"

Xion said, "Go back to Mr. Wade, I'm still in Shangri-La "

Charlie asked again, "Do you have

any important things at hand?" Xion replied, "There is nothing important, basically just some small details of the wedding. If you have any orders, just say them, and I will get away!"

Charlie said, "Okay, then you drive to the Champs Elysees Hot Spring Villa now, come alone, don't tell anyone." "

Champions Elysees Hot Spring Villa?" Xion asked subconsciously, "It's your set in the suburbs. A hot spring villa in the middle of the mountain?"

"Yes." charlie said, "Hurry up and come here now, I'll wait for you here."

Xion was surprised.

She didn't understand why charlie suddenly asked herself to go to the Champs Elysees Hot Spring Hotel to meet him.
