

The reason why charlie turned to comfort Xion not to worry was nothing more than retreating and using aggressive methods to make Xion no longer refuse his invitation to let her try the medicine.

He still knows Xion very well. When this girl worked for the Banks family before, although her methods were somewhat cruel, she was a very affectionate and righteous person. To herself, she would definitely be loyal and unreserved .

It is precisely because of this that charlie thought of asking her to help test the medicine as soon as he refined the new medicine.

He knew very well in his heart that the efficacy of this elixir would definitely be stronger than the previous Sanxue Jiuxin elixir, and it would not have any bad side effects, so it must be a good thing for Xion.

And charlie's provocative method has indeed worked. Xion no longer thinks about whether she owes charlie too much favor at this moment. She only thinks that she must not let charlie doubt her loyalty and courage.

So, she took the pill from charlie, and asked firmly, "Mr. Wade, if you take the pill now?"

charlie nodded, "Take it, I will watch by your side, There shouldn't be any problem."

"Okay!" Xion nodded slightly, then sat cross-legged on the ground, and put the elixir into her mouth very simply.

Xion had used the Sanxue Jiuxin Pill before, and knew that this kind of pill would turn into pure medicinal power and go straight to the dantian, so she also made preparations in advance and waited for the surging medicinal power in the pill.

However, she did not expect that the potency of this elixir far surpassed the Sanxue Jiuxin elixir she had taken before.

The medicinal power was already surging, and it quickly poured into her eight meridians, and frantically flowed into her dantian.

Before Xion could react, the sixth meridian was instantly opened up by the medicine, and she also became a six-star warrior in an instant!

Six-star fighters are rare even in the Wanlong Palace, and it is even more difficult to find a second person in the whole country!

However, Xion didn't even have time to be happy for herself as a six-star warrior, the seventh meridian in her body was also washed away by the medicine in an instant!

In the blink of an eye, Xion jumped another level, from a six-star warrior to a seven-star warrior!

Xion himself did not expect that the total time for him to become a six-star martial artist was only a short two or three seconds!

charlie didn't expect that Xion would be able to upgrade two levels in a row. After all, the later the cultivation level, the harder it is to upgrade. A single pill can be upgraded from five stars to seven stars, which is indeed better than the general blood-scattering and heart-rescuing pills. Not a lot! Seven-star warriors in their twenties, even in the Wanlong Palace, are rare. The Elms family has practiced martial arts for hundreds of years, and it is impossible to produce a seven-star warrior in their twenties. I dare not even think about it.

But now, this young girl, who is only in her early twenties, has officially entered the ranks of seven-star warriors, creating a new record for the Elms family and even the domestic martial arts family. However, right now, Xion still has a lot of medicinal power in his body, which is constantly rushing towards the eight extraordinary meridians!

And Xion's seven meridians that have been opened up are obviously still unable to bear the powerful medicinal power, and this medicinal power is also rushing towards Xion's eighth meridian. So, Charlie was surprised to find that Xion's eighth meridian showed signs of loosening under the impact of the huge medicine!

Charlie wondered in his heart, "Could it be that this elixir can raise Xion from five stars to eight stars?!"

Although Xion couldn't speak at this time, his heart was already turned upside down!
