

“Yes.” charlie nodded, and said very seriously, “One way of martial arts is to enter the Tao with martial arts. If you want to truly enter the Tao, you must practice martial arts to the extreme. The Ming Realm is just the beginning, and the Dark Realm is just the first hurdle after getting started. Every small level improvement in the future may take a lifetime to achieve. You can cultivate to an eight-star warrior in fifty years, but Give you another fifty years, you may not be able to break through the dark realm, even if you are lucky enough to break through the dark realm, and you can live another fifty years, do you think you can cross from the first level of the dark realm to the second and third level of the dark realm? Oh my god? Not to mention the transformation realm and master realm behind, every step, the difficulty is multiplied exponentially.”

Hong Changqing suddenly became more at a loss, and he couldn't help muttering, “Does that mean that stepping into the dark realm, In fact, it's only one-twenty-seventh of the journey of martial arts?”

charlie nodded, and said two words flatly but cruelly, “Yes.”

Hong Changqing was extremely depressed, and asked him, “Master Wade, how about that?”

Entering Dao with martial arts, what kind of Dao do you enter? How many years will it take to walk this Dao?”

charlie smiled and said, “Then you can ask me, I don't know how many years it will take to walk the next road.”

Hong Changqing lamented, “The journey of martial arts is really too long, and there are countless dead bones along the way, but I don't know how long I will go.” Where will this old bone stay...”

charlie smiled and said, “You don't have to feel depressed, Voyager 1 has been flying for nearly 50 years, and it has not yet flown out of the solar system. When will it fly out of the solar system? Well, it may take tens of thousands of years to reach the next galaxy. You treat it as yourself. When you break through and enter the dark realm, it is equivalent to Voyager 1 flying out of the solar system. Thinking about it this way, right? Do you feel that the future is very vast?”

“Vast?” The corners of Hong Changqing's mouth twitched unconsciously, “After you say that, I just feel even more desperate, and I don't know where I can go.”

charlie said with a smile “Don't think about it so much. This is not something you should think about. After all, you are only a four-star warrior now. Let alone flying out of the solar system, you have just reached the edge of Mars at best.” Hong Changqing heard this

. His heart was bleeding even more, and he quickly assured him, “Master Wade, don't worry, this subordinate will notify his personal disciple to come to Aurous Hill to inherit the token of the head of Taizhen Taoism. After that, this subordinate will wholeheartedly serve you like a dog and a horse.” Excuse me!”

charlie asked him with a smile, “If your personal disciple asks where your ancestral medicine cauldron has gone, what would you say?”

Hong Changqing sneered awkwardly, and said, “Master Wade, don't worry, the medicine cauldron is gone.” The matter is the top secret of the head. Only when the old head passes on the position of head to the new head will it be handed over together with the token of the head. The successor of

the head only knows that there is a token of the head, but not The existence of the medicine cauldron, so as long as I don't say no..."

charlie gave him a thumbs up, and said with a smile, "You know how to pass the position."
