

Hearing the voice of the hero questioning, everyone's expressions were terrified.

Willie spoke first, and said respectfully, "Back to the Lord, my subordinates are investigating in Eastcliff. There are no clear clues yet, but my subordinates believe that there will be gains in China."

The Lord asked coldly, "Do you still

think Lin Waner (Alani) is most likely to escape back to China?"

"Yes!" Willie replied, "My subordinates think that Lin Waner (Alani) should be in China." The Lord asked

him, "Why are you so sure?"

After analyzing Lin Wan'er's current situation, for her, choosing a deserted place with a large area and few people to hide seems to be the best choice, but the subordinates think that she has already failed once in Northern Europe, so this time, She will definitely do the opposite and go to the place with the most people, and as the saying goes, a hermit hides in the city, and Lin Waner (Alani) is also Chinese, so hiding in China is definitely the best choice for her." The hero was silent for a moment, then

spoke Said, "This witch is more cunning than a fox, and I can't figure her out. Uncle Mason, let's do it according to his intuition." Uncle Mason

clasped his fists respectfully, "Your subordinates obey!"

The Lord said again, "That's right, Now that you have arrived in China, take the time to go to Aurous Hill."

"To Aurous Hill?" Willie asked, "I don't know what the Lord has ordered?"

The Lord said coldly, "Although Bruce and Lydia (Ava) (Charlie's mom) were together Aurous Hill was beheaded by you, but the whereabouts of their two sons have been unknown. As the saying goes, weeds must be eradicated, but that incident made too much noise back then, and the relatives and friends of the couple were all looking for that boy I didn't ask you to chase after him again, but for some reason recently, the more I thought about it, the more uneasy I felt. If you can find out the whereabouts of that kid, you don't need to report to me, just kill him !"

Willie's expression was bleak, and he said with shame on his face, "My lord, after killing Bruce and his wife, I immediately went to the school where his two children are, trying to kill the grass, but in the end It was still a step too late, when this subordinate arrived, he had already been taken first, and asked the Lord to punish him..."

Yingzhu said, "I'm not trying to settle accounts after the fall, but this matter really makes me feel uneasy. You must find him when you go this time!" Willie immediately said in a respectful and respectful voice, "Don't worry,

Yingzhu, this subordinate must find a way Find that kid and kill him with your own hands!"

The Lord said with emotion, "If that kid is still alive, he would be almost 30 years old now!"

Willie nodded, "If my subordinates remember correctly, Bruce and Lydia (Ava) (Charlie's mom) were beheaded by their subordinates, their sons should have just turned eight years old."

"Eight years old..." the Lord Ying murmured, "Twenty years have passed, so he is now twenty-eight years old. Already."

Willie respectfully said, "The Lord of England is wise!"

The Lord of England said coldly, "Uncle Willie, if he is still alive, don't let him live past thirty!"

Willie said loudly without thinking, "Ying Ying Lord, rest assured, as long as he is still alive, his subordinates will definitely kill him within two years! If he is already dead, his subordinates will also dig out his bones and present them to the British Lord!" "Okay!"
