

Without the four Earls, the Poqinghui would only be missing four super masters with peak strength, but without the Fifth Army Commander's Mansion, the Poqinghui would be like losing its hands and feet.

Therefore, the British lord himself controlled the five-army governor's mansion, and even kept guard against the four earls, and didn't want them to know too much about the five-army commander-in-chief's mansion.

Therefore, the four of Oberjun and the others may be said to be the Four Earls, but they are actually the four mascots of the Qing Dynasty.

At this time, Oberjun didn't dare to have any delays. He hurriedly got up and left the hotel, called a business jet general aviation company, and rented a Gulfstream plane at a price of 30,000 euros, and flew directly from Osu City to Naples, a city in southern Italy. .

During the flight, Ober-jun has been analyzing the current situation of the Qing Dynasty and the current difficulties of the British Lord.

As the four earls, he actually had many questions that he couldn't figure out.

Firstly, he couldn't figure out why the British lord was so obsessed with Lin Wan'er; secondly, he couldn't understand

how magical Lin Waner (Alani)'s so-called ring could make the British lord so obsessed;

I had photographed Willie killing Bruce and his wife a few years ago, why he still couldn't forget An's family, and even killed An's family suddenly after 20 years; I couldn't figure out why the British Lord suddenly asked

Willie to look for him. The whereabouts of Bruce's son.

However, although there are so many problems that he didn't understand, he has noticed an obvious change through these situations, that is, the Lord of England is now relying more on the four earls, and he has gradually begun to have more defenses against them than before. got loose. Therefore, in Oberjun's view, no matter whether he can take advantage of the opportunity to make meritorious service, his future situation will be much better.

After a three-hour flight, Oberjun's plane landed at Naples Airport.

This is the first time he has come to this city, but he has already heard about this city, which also benefits from the fact that football legend Maradona once played for Naples Football Club.

At this moment, at the Naples airport, his eyes were darkened, he didn't know where to go, and he didn't know who to turn to.

He had been waiting for the phone to ring, but until the moment he walked out of the airport, he still hadn't received any message.

At this time, a middle-aged man stepped up to him and said respectfully, "Uncle Russell, you have worked hard all the way, please follow me."

Looking at the person coming, Ou Bojun asked, "Who is your name, where are you?" What is the identity of the Governor's Mansion of the Right Army?"

The man hurriedly said, "Uncle Russell, his subordinate is Yuan Chengze (Andre), the general of the Governor's Mansion of the Right Army!"

Ou Bojun nodded slightly, and said, "Then, General Yuan Shen will lead the way.

" When he said this, he was sighing in his heart, "What is the gap? This is the fucking gap. As one of the four earls, I came to this place and didn't know where to go or who to look for. But people know all my whereabouts, British Lord, British Lord, you guard us like you are guarding against thieves."
