

Then, a shocking scene appeared in front of Abbas.

The ground of the copper mine began to collapse one after another, each time the ground trembled, and the buildings on the ground, like paper paste, were quickly collapsed into debris. Due to the large number of renovations made to the interior of this copper mine by the Qing Dynasty, the interior space is huge. When all these spaces collapsed, a subsidence area with a depth of more than ten meters was formed on the ground of the entire copper mine, and the subsidence area was more than It is the position of the ground copper mine, and the direction of the extended roadway has also formed a serious subsidence.

Soon, the copper mine was in ruins.

Army Commander Abbas let out a sigh of relief, took out his mobile phone, and sent a message to Charlie, "Mr. Wade, the master of the Po Qing Society has been wiped out, and the plan to overthrow the nest has been successfully completed!" After that, he also recorded the video of the whole process recorded by the monitoring equipment They sent them to Charlie together.

It was early morning in Aurous Hill at this time.

Just as Charlie got up from the bed, Claire beside him was still fast asleep.

He picked up his mobile phone and received Abbas's message and video. He was overjoyed, and after stepping onto the terrace, he clicked on the video.

This scene is the whole monitoring of the defense system of Wanlong Palace.

It has followed and photographed Oberjun since it discovered him, so what Charlie saw was almost the whole process of Oberjun from appearing to being killed.

Although Charlie couldn't see Ou Bojun's cultivation level from the video, but like Abbas, he could tell from Ou Bojun's skill when he sneaked into the copper mine and the movements he tried to avoid shells that he was quite powerful.

Leaving aside whether he has mastered spirit energy or not, Abbas is simply no match for him in terms of his speed and explosive power.

If it was Abbas who came into direct contact with him, he might have been killed by the opponent before he recovered his senses.

Therefore, according to the opponent's strength, he must be one of the four earls.

Charlie also breathed a sigh of relief, and returned a call to Abbas.

As soon as the call was made, Abbas said respectfully, "Mr. Wade, have you seen all the videos sent by your subordinates?"

"There is absolutely no power to fight back, and it is very simple and clean!"

Abbas hurriedly said, "Thanks to Mr. Wade for your good method, otherwise, you will make your subordinates want to break their heads, and they will never think of using close-in anti-aircraft guns to deal with the broken A super master of Po Qinghui (Benn)..."

Abbas was not flattering, but admired Charlie's foresight from the bottom of his heart.

Before Wanlongdian received missions all over the world, he had seen a lot of swords and fires. Abbas felt that he was not only strong personally, but also had a high level of command on the battlefield.

However, for such a long time, Wanlongdian never thought of using such a big killer as a close-in defense gun.
