

For Charlie, although the Abbas Army under his command and the Master Qiu Zhiyuan of the Abbas Army have entered the dark realm, it is not enough.

In addition, although Duan Liye and Bick, the original special envoys of the Qing Society, were also masters of the dark realm, Charlie could not regard them as his own.

After all, these two people are controlled by psychological hints. If the two armies are at war, and the people who broke the Po Qinghui (Benn) have the ability to resolve their own psychological hints, they will immediately become enemies.

Therefore, Charlie asked Duan Liye to return to Turkey to continue to be his special envoy, while Bick was arranged by him by the side of the Abbas Army Master Zun Qiu Zhiyuan.

In the future, if he wants to confront the Poqing Society head-on, he must have at least 20 or 30 dark realm experts under his command to have a chance.

If you want to cultivate masters in the dark realm in batches, a lot of pills are naturally necessary, and this medicine cauldron can just help Charlie get twice the result with half the effort.

Charlie planned in his heart to train Xion to be the third master of the dark realm first, and then systematically select a group of potential martial arts experts from the Wanlong Palace, the Elms family and other martial artists, and train them one after another. A group of dark masters came out. Therefore, Charlie felt that he could also choose a suitable address and set up an organization similar to Huben Camp, and train dark masters from this organization in the future.

Seeing that it was getting late, Charlie said to Xion, "Xion, you go back and continue preparing for the wedding. Right now, no one in the Elms family can see your cultivation level. The matter of breaking through the eight-star martial artist is temporarily out of the question." Don't tell anyone else."

Xion said without thinking, "Don't worry, Mr. Wade, Xion won't tell anyone."

Charlie said again, "In the next few days, I will ask Isaac to buy back several villas here, and then transform the entire Champs Elysees Hotel into a private club. It will no longer be open to the public. At that time, I will be here I will reserve a villa for you, and I will contact you after the wedding is over, so you can come here and concentrate on retreat."

Xion quickly asked, "Mr. Wade, why is such a big hot spring hotel turned into a private club? "

It's a private club, but it's actually just a cover. At that time, it will be completely closed to the outside world. I think it's a beautiful place, and I plan to transform it into a good place for retreat and cultivation." Xion was surprised

. "Mr. Wade, do you want to cultivate martial arts masters here?" "

That's right." Charlie didn't hide anything, and nodded very simply, "To compete with the Poqing Society, we need many martial arts masters like you." , in the future, I will gradually transform this place into a secret base for cultivating masters, and then you will be the senior sister here."

Xion asked curiously, "Mr. Wade, Xion has a question for you..."
