I am a quadrillionaire chapter 2547-Heavenly Overlords could cross the universe and all realms.

Among the countless level 9 civilizations in the universe, there were very few Heavenly Overlords.

It had also never appeared throughout the entire history of Leila.

Sylvio had lived since the Great Ancient War to the present, but he was only a partial Heavenly Overlord.

Although he was the pinnacle of partial Heavenly Overlords and was already infinitely close to being a real Heavenly Overlord, he was still some distance away after all.

Moreover, this might be a gap that he could never cross.

When he heard Lufian talk about ruling Leila, Sylvio was taken aback.

Before he could react, a terrifying and berserk force erupted from the Black Tortoise Shield.

Boom!

It broke open the Black Tortoise Shield directly, scattering countless mysterious runes.

Sylvio was caught off guard by the sudden change.

Before he had time to react, the terrifying energy had already spread to his body and landed heavily on him.

In an instant, Sylvio's body was blown away.

Lufian's figure appeared in the void. The energy surrounding him terrified Sylvio.

The only person who could do this was no doubt a legendary Heavenly Overlord.

Sylvio was stunned. His eyes widened and his face was full of disbelief.

He thought to himself, 'Lufian broke through to Heavenly Overlord?

'He actually broke through to Heavenly Overlord?

'How is this possible?

'How could he break through to Heavenly Overlord Rank so easily?

'I have lived for endless years, and I even have Zwei Arithmetics to seek good fortune and avoid evil. I have found countless opportunities in the universe, but I still have not been able to reach this stage.

'How old is Lufian?

'How did he suddenly become a Heavenly Overlord and reach the realm countless Overlords dream of?'

Sylvio did not dare to believe his eyes.

However, the truth was in front of him so he had to believe this.

The breath emanating from such a long distance could make a partial Heavenly Overlord like him feel palpitations.

Only a true Heavenly Overlord could do that.

"Sylvio, I didn't want to do this. You have tried your best to help me along the way, but I don't understand why you must stop me from going to Elora. Are we going to turn against each other because of this?" Lufian asked seriously.

Sylvio did not answer the question, but asked instead, "Are you really Lufian?"

"I told you, I am Lufian!"

"Are you a Heavenly Overlord now?" Sylvio continued to ask.

'That's right! From now on, Leila will be guarded by me, Lufian. The Soul Devourers and the Robotias will completely disappear into the universe under my power and become the dust of history,' Lufian said domineeringly.

“Can you tell me how you did it?” There was an expectant look in Sylvio’s eyes.

He had been a partial Heavenly Overlord for a very long time.

He was only half a step away from being a real Heavenly Overlord, but he still could not get past it.

This half step was like a huge gulf and it was making Sylvio feel desperate.

“I broke through naturally after I understood and realized things. You are still stuck in partial Heavenly Overlord Rank because the time has not yet come,” Lufian replied.

After becoming a Heavenly Overlord, he understood a lot.

Even if he took a shortcut, he was still a real Heavenly Overlord.

There were many things that he would only know after he reached that step.
