

## Read I Am A Quadrillionaire Chapter 2553

I am a quadrillionaire chapter 2553-After Lufian left, Sylvio contacted Valentin and Drogo immediately.

The two Overlords rushed over quickly.

They did not know anything about Lufian as yet.

So, they were a little curious about Sylvio's sudden call.

"Sylvio, why did you suddenly call us over?" Drogo asked aloud.

"Yeah! Sylvio, tell us what's going on. I'm still recovering," Valentin also asked.

His injuries were the most severe.

A Lv 6 Robotia's self-detonation was not something trivial.

Until now, he was not even 30% recovered.

It might take a long time for him to recover, even with the assistance of countless healing medicines.

By this time, Sylvio had calmed down. One could not tell that he had just experienced a big battle and that his body was seriously traumatized.

No, it was not a big battle.

It should be unilateral abuse.

Anyone who faced Heavenly Overlord Lufian going berserk would be abused by him.

Compared to a Heavenly Overlord, there was little difference between a Supreme Overlord and an Ancient Overlord.

They were all ants!

"I asked you to come here at this time because I have something very important to tell you. It is related to the life and death of the entire Leila. If you are not careful, you may lose everything," Sylvio said seriously.

Judging from Sylvio's expression, Valentin and Drogo understood the seriousness of the matter.

"Sylvio, are the Robotias and the Soul Devourers coming? Those bastards are really good at timing. They know that we are all injured, so they choose to attack at this time. Don't worry, Sylvio, although I am only less than 30% recovered, I can still fight. At worst, I will follow their example and blow myself up to die with these bastards." Valentin had a baleful look on his face.

"Valentin is right! There are no cowards in Leila. Even if we die, we will drag a few of them down with us." Drogo also gritted his teeth. He was extremely angry.

Both of them climbed the ranks of Leila step by step, so they had special feelings for Leila.

It was their hometown and no one was allowed to destroy it.

"It's not about the Robotias and the Soul Devourers. Those two races are no longer a threat to us, but there is a bigger crisis and it's much greater than the threat of the Soul

Devourers and the Robotias joining forces. Even I can't do anything, Sylvio said, shaking his head.

Valentin and Drogo exchanged glances.

They could feel each other's doubts.

Had the threat of the Soul Devourers and the Robotias been resolved?

When did this happen?

How could they not know?

There was a greater crisis than the alliance between the two enemy races?

What was it?

It could even threaten Leila's life and death?

The two were confused.

They did not understand what Sylvio was saying at all.

“Sylvio, stop keeping us in suspense. What happened? Tell us! Do you want to wait for Lufian to arrive before you tell us? By the way, we are both here, but why hasn’t Lufian arrived yet? It stands to reason that he should arrive before us,” Valentin asked suspiciously.

“The crisis is related to Lufian. What I say next may challenge what you already know, but it’s all true,” Sylvio said in a deep voice.
