

## Read I am a quadrillionaire chapter 2568

I am a quadrillionaire chapter 2568-“Human, you are not an ordinary Overlord. Ordinary Overlords are definitely not as strong as you. Who are you?” Mother asked aloud after it stopped.

It was shocked by Lufian’s strength.

It did not expect a small human being to have such domineering power.

Just now, it had no choice but to cut off its tentacle.

For Mother, who had dozens of tentacles, the loss of one would not affect it.

“You want to know who I am? You’re not qualified yet,” Lufian said with a sneer and casually threw away the tentacle in his hands.

“What a joke! I have traversed the universe for countless years. Creatures will retreat whenever I pass and I’ve

devoured so many civilizations. What have I not seen? You are a mere human, so how dare you say such things to me!”

“Why? I can swing you around and play with you like a toy, isn’t that enough? Hahaha!” Lufian started laughing again.

“How presumptuous! I was negligent and that’s why you managed to seize the chance. Now, I will let you know that anyone who dares to be so presumptuous in front of me will not end up well!”

Mother was furious.

Its descendants were practically wiped out, and this human had even picked it up and toyed around with it.

It waved its dozen giant tentacles and attacked Lufian. It would no longer give the opponent a chance to grab them.

Of course, this was everything Lufian wished for.

He had not gone all out yet!

Judging from the fight just now, this tentacle monster also had the power of a partial Heavenly Overlord.

However, due to its huge body and huge strength, it was already infinitely close to being a real Heavenly Overlord.

However, a gap was still a gap at the end of the day.

If it had not reached Heavenly Overlord Realm, it was only considered a partial Heavenly Overlord.

With this gap, Lufian had an absolute advantage. He could completely abuse it or even kill it right here.

Boom!

The two sides collided again.

Dozens of tentacles bombarded Lufian continuously.

Lufian remained calm in the face of danger. Using only his hands, he resisted the opponent's attack in an orderly manner.

From time to time, he would grab a tentacle and tear it off forcefully.

When the two sides separated again, Mother only had half of its tentacles left.

The other half was ripped off abruptly by Lufian and thrown away.

At this time, Mother finally realized that something was wrong.

The loss of one tentacle had little effect on it, but losing half of them was a big problem.

If the opponent was only a partial Heavenly Overlord, he would not have such terrifying strength.

After all, it was already at the limit of partial Heavenly Overlord Rank.

Anyone stronger could only be a real Heavenly Overlord.

"Human, have you broken through to Heavenly Overlord Rank?" Mother asked, holding back her anger.

“Did you just realize that? It’s too late! I, Heavenly Overlord, will completely destroy your race today and erase you from the universe forever so that you will not harm other civilizations again.”

After Lufian finished answering, he took the initiative to attack. The golden giant rushed toward Mother again.

Now that his strength was exposed, he was not going to hide it anymore.

He was going to tear off all the tentacles of this tentacle monster before breaking open the round body to see what was inside.

Upon hearing Lufian’s affirmative answer that he was a Heavenly Overlord, Mother panicked instantly, backed away, and said in a panic, “Humans, this is all a misunderstanding. Let’s have a chat! We don’t need to fight to the death as it won’t be good for all of us. If you had told me that you’re a Heavenly Overlord earlier, we would definitely have changed our target. Why would we continue invading Leila?”
