I am a quadrillionaire chapter 2563-One had to admit that Stark was very lucky.

Shortly after he left, a ball of light approached the Robotias' lair.

It was Lufian who stepped into Heavenly Overlord after fusing his dual souls.

This time, Lufian arrived full of anger and vowing to avenge Elora.

How could he not be angry after his beloved woman was seriously injured by the Soul Devourers and the Robotias twice? Now, her whereabouts were still unknown.

If his violent personality took control of the body, Lufian would tear everything in front of him, regardless of whether enemy or a friend.

To him, there were only two kinds of people.

Himself and enemies, no friends.

However, after the fusion of the dual souls, Lufian's original personality still dominated the body. Although he was still greatly affected, he did not completely lose his mind.

Lufian knew that the Robotias and the Soul Devourers were to blame for Elora's serious injury.

So, his goal was to destroy these two races to vent his anger.

Originally, he wanted to find Elora first so that he could bring Elora with him and let her witness it with her own eyes.

However, Sylvio would rather die than tell Elora's whereabouts, so Lufian has no choice.

He still maintained a semblance of reason, so he could not bring himself to kill Sylvio.

Not to mention how much Sylvio helped him along the way.

Once Elora found out that he killed Sylvio, she would never forgive him.

That was one of the reasons Lufian did not kill Sylvio.

After Lufian achieved Heavenly Overlord Rank, it would be very easy for him to forcibly take down Sylvio, and no one could stop him.

However, he did not want to do that.

He wanted Elora's heart, not just her body. 2

Elora had become Lufian's obsession and inner demon, and it could not be eradicated without him obtaining Elora's body and mind at the same time.

Even his future achievements would be limited.

Lufian's other violent personality also knew this.

So he dared not intervene too much in Elora's matter and would let the original personality handle it.

If this became a sore spot, the idea of conquering the universe and all realms would fail.

As soon as Stark left, Lufian arrived.

Fortunately, they did not run into each other halfway.

Otherwise, with Lufian's current strength and hatred for Stark, Stark would not even have a chance to escape.

If Stark died, the Soul Devourers would be pretty much gone.

He was the stabilizing force of the Soul Devourers.

Without Stark, the Soul Devourers would become a mess, with everyone fighting for their own interest.

Some wanted revenge while others thought that it was meaningless to do so, and the most important thing was to find a low civilization so that the Soul Devourers could continue to survive.

In the end, they might split into several weak fractions.

As Lufian looked at the huge and terrifying monster in front of him from a distance, there was no fear in his eyes, only hatred.

The last time he saw the Robotias' mother brain, it was not this big.

It had grown up a lot.

It had almost devoured an entire level 8 civilization, so it was no wonder they teamed up with the Soul Devourers to attack Leila. There was nothing left for it to eat.

Clenching his fists tightly, the energy in Lufian's body leaked uncontrollably. It was obvious that he was about to lose control.

Lufian muttered to himself while trying to stay calm, "Elora, I will avenge you first. I will destroy the Robotias' lair and then annihilate the Soul Devourers. In the future, I will tell the whole universe that no one can hurt Lufian's woman.

Whoever dares to touch you will bear my boundless wrath!"

Immediately, he stopped suppressing himself and completely released his violent side.

As long as the Soul Devourers and the Robotias didn't harm Elora, Lufian wouldn't lose control, even if they managed to conquer the Star Kingdom.
