

An Understated Dominance By Marina Vittori

Chapter 1936

Five minutes later.

Leo Alexander returned to the room sweating profusely and reported the situation to Margaret: "Miss Li, you guessed it right. Most of our people have been poisoned. Fortunately, we have the antidote pill you gave us, otherwise we would be in trouble!"

No one was killed, right?" Margaret asked.

"A few were seriously injured and lost the ability to move, but fortunately they were not life-threatening." Leo Alexander replied.

"That's good." Margaret breathed a sigh of relief.

There was a bit more chill in her beautiful eyes.

She never provokes people easily, but she is not someone who tolerates others' anger.

The murderer used such insidious and despicable means to harm people, and he must not be leniently spared.

"Captain Leo, pick a few brothers and go and investigate carefully to see who is behind the scenes. As soon as you have any news, tell me immediately." Margaret ordered.

"Yes!"

Leo Alexander responded, turned around and went out again.

Just now, members of his Black Scorpion team were also poisoned, and he was equally resentful of the mastermind behind the scenes.

"Miss! It's not good! Something happened with the village chief!"

At this time, Margaret's personal butler, Uncle Wang, suddenly walked in quickly.

"Something happened? What happened?" Margaret raised an eyebrow.

"Not long ago, the village chief called me and asked me to pick up the camels and pay the balance. But when I rushed to the scene, I found that the village chief's house was in a mess, with countless casualties. Alexis Walters from the Five Elements Sect suddenly became angry for some unknown reason. He is crazy and kills everyone on sight. He is extremely ferocious and cannot be stopped at all." Uncle Wang said with a panicked expression.

"How could this happen? Wasn't Alexis Walters fine not long ago?" Margaret frowned.

"I don't know the specific situation, but this incident has alarmed all the forces in the village." Wang Bo said.

"Let's go over and take a look!"

After thinking for a few seconds, Margaret decisively led the people out.

...

At this moment, in the center of the village.

Hundreds of young men armed with weapons were besieging a disheveled man.

The man's eyes were red, veins popped out on his face, and the muscles all over his body were bulging, like a crazy beast, which looked particularly terrifying.

The man is none other than Alexis Walters from the Five Elements Sect.

It's just that Alexis Walters at this moment is not as sick as before. He has become energetic, powerful, and has completely lost his mind.

Anyone who comes close will have their limbs torn off and torn into pieces.

In just a few minutes, more than a dozen tattered corpses were lying at his feet, and the ground was covered with blood.

"Death! Die! Die!"

Alexis Walters kept roaring, with wild beast-like roars coming out of his mouth.

Black lines appeared on the surface of its body at some point.

These lines are very strange, like earthworms, centered on Alexis Walters's chest, spreading continuously.

Wherever the black lines pass, Alexis Walters's skin and bones will be greatly strengthened.

Although he went crazy, Alexis Walters's strength increased significantly.

For a time, no one could stop the scene.

"Hurry! Tie him up quickly!"

Village chief Michael Jones stood in the distance and loudly ordered the young men in the village.

These young men are the escorts he formed. After special training and the guidance of famous teachers, they can be regarded as elites.

It is usually easy to deal with some bandits.

However, today, he suffered a loss at the hands of Alexis Walters, killing and injuring more than a dozen people.

"Use a gold wire net!"

The captain of the escort team made a quick decision and immediately asked someone to bring up a large gold wire net, and together they covered

Alexis Walters.

"Monsters! You monsters! I'm going to kill you all!"

Alexis Walters, who was covered by the golden mesh, struggled crazily, dragging more than a dozen people away with his powerful strength.

"Quick! Come together!"

Michael Jones gave the order, and hundreds of people immediately rushed forward, holding on to the golden wire mesh, trying to restrict Alexis Walters's movements.

Some people even took out wooden stakes and nailed the gold mesh to the ground.

"Roar! Roar!!"

Alexis Walters let out an inhuman roar.

After the combined efforts of hundreds of people and the tough golden mesh, Alexis Walters was finally trapped temporarily.

"What a risk!"

Michael Jones breathed a long sigh of relief.

Unconsciously, his forehead was covered with cold sweat.

After going crazy, Alexis Walters's strength greatly increased and he was extremely difficult to deal with. If it weren't for a treasure like the golden mesh, he might not be able to catch him today.

"Village chief, what happened?"

At this time, Margaret and her party finally arrived at the scene.

"Miss Li, you came just in time."

Michael Jones wiped the sweat from his forehead and said quickly: "I don't know what happened to this guy Alexis Walters. He suddenly went crazy

just now and injured many of us. If it weren't for We are well-trained and well-equipped, so we really can't do anything to him."

"How did Alexis Walters become like this?"

Margaret looked over and frowned slightly.

Alexis Walters inside the golden mesh had red eyes, bared teeth, and an unusually ferocious expression.

Especially the huge and muscular body, which is completely different from before.

If Alexis Walters was a little over 1.7 meters before, now, it is close to 2 meters!

The muscles all over his body are bulging, and the surface of his skin is covered with black lines.

Some parts even have scales growing on them, making them look like monsters.

"Is it because of the previous poisoning?" Michael Jones asked tentatively.

"It shouldn't be possible."

Dustin, who was standing next to him, immediately denied: "Alexis Walters's disease was cured by me myself, and I have also cleaned up the poison in his body, leaving no hidden dangers."

"Then. That's strange."

Michael Jones frowned and said thoughtfully: "Why did a good person suddenly go crazy?" "

Village chief, has Alexis Walters done anything unusual since we left?" Margaret suddenly asked.

"Abnormal behavior?"

Michael Jones thought about it carefully, then shook his head and said: "There seems to be nothing unusual. After you left, Alexis Walters went back to the room to sleep. There was nothing special during the period. Until a stick of incense was given to him, I asked someone to give it to him. During the meal, I realized that he had gone crazy."

"Dustin, what do you think?" Margaret looked sideways.

"Alexis Walters's body has undergone a change, and now his strength has doubled. However, this improvement is extremely fatal. If it continues, Alexis Walters is likely to explode and die." Dustin said with a serious face.

Although he had studied various medical classics, he had never encountered a situation like Alexis Walters's.

"No! The golden wire mesh is about to break!"

At this time, an exclamation suddenly sounded from the crowd.
