

An Understated Dominance By Marina Vittori

Chapter 1959

"Since Senior Ruso insists on this, I will say nothing more."

Seeing that his advice was fruitless, Kevin Snow could only give up.

An unheard-of beast like this will definitely cause an uproar once it comes out.

As for what will happen in the end, no one knows.

"Little girl, I want to capture this strange beast alive. Can I borrow your dragon trap rope?" Billy Ruso suddenly turned his head and looked at Margaret.

With his cultivation, it was easy to defeat this strange beast, but it would take more than a day or two to trap and tame it.

Ordinary ropes are obviously useless against such a behemoth.

Only treasures like trapped dragon ropes can tie up strange beasts.

"Senior Ruso has already spoken, so the little girl naturally doesn't dare to refuse."

Margaret made a gesture and ordered the guard captain to bring the dragon rope, and then handed it to Billy Ruso.

"Thank you, girl. I, Ruso, will accept your love today. If you encounter any trouble in the future, just come to me!"

Billy Ruso was in a good mood after taking the trapped dragon rope.

Just when he was about to take action, something happened.

The black panther monster that was eating seemed to have noticed something, and suddenly raised its head warily.

A pair of green beast eyes, looking from left to right, black hair like steel needles, slightly arched, as if facing a powerful enemy.

"Bang!"

At this time, a huge pit suddenly exploded on the ground in front of him.

Immediately afterwards, an earth-yellow giant python suddenly jumped out of the pit.

This giant python is as thick as a water tank. Its body is more than ten meters long. Its scales are like armor and exude a metallic luster.

From a distance, it looks like a train.

"Fuck!"

The sudden scene startled everyone.

The black panther monster is scary enough, but now an even more terrifying giant python pops out.

How many monsters are hiding in this place?

"Empty——!"

The giant yellow python broke out of the ground, let out a harsh neigh, and then rushed towards the black panther monster.

"Roar!"

Not to be outdone, the black panther monster roared and rushed towards the giant python.

A leopard and a python soon started fighting.

The advantage of the Black Panther monster is its fast speed, sharp claws, and very dexterous movements.

The advantage of the giant python is its huge size, amazing strength, and extremely high defense.

The Black Panther monster's attack is mainly based on biting and grabbing. It will retreat with one blow and will never fight.

As for the giant python, either hit it with his body or whip it with its tail.

Two strange beasts fought back and forth.

On the surface, it seems that the black panther monster has the upper hand, because every time it pounces, it will leave several blood marks on the giant python.

On the other hand, the giant python looked a bit clumsy due to its huge body, which made it unable to do anything to the black panther monster for a while.

"Hahaha... It seems that my mount is better!"

Seeing this scene, Billy Ruso couldn't help but laugh and became even more joyful.

If you can tame this strange beast into a mount, you will be more majestic when you go out.

"The giant python hasn't fully exerted its power yet. It's hard to say who will win." Dustin said calmly.

The black panther monster looks ferocious and pounces with its claws at every turn.

But its attack would not have much effect on the giant python, which had rough skin and thick flesh and was protected by scales.

"Boy, it seems that your eyesight needs to be improved. You can't even see such an obvious advantage. I dare to conclude that this giant python will run in less than three minutes!" Billy Ruso said confidently.

"Really? Let's wait and see." Dustin smiled slightly and didn't say much.

The battle between the two alien beasts became more and more fierce.

Everywhere they passed was a mess.

Even the defenses built in front of the camp were mostly destroyed.

These fortifications are enough to deal with ordinary beasts, but they are not enough to deal with powerful beasts like this.

In order to avoid getting harm, everyone had to keep a distance.

"Roar!"

After beating, the black panther monster seemed to have grasped the flaw, and suddenly bit the giant python at seven inches.

Then he started tearing wildly, trying to kill him with one blow.

The giant python was obviously well prepared. When it was bitten, it turned back suddenly and sprayed out a stream of black poisonous mist from its mouth.

"Huh——!"

In the blink of an eye, the poisonous mist completely swallowed up the black panther monster.

The black panther monster wailed, not daring to bite any more, and turned around and ran away.

However, after being poisoned, its speed was significantly slower.

The giant python seized the opportunity and hit the black panther monster with a heavy tail whip.

The black panther monster flew more than ten meters away in an instant and knocked down two big trees before stopping.

Just as it was trembling, it was about to stand up.

The giant python quickly slid up, wrapped its long python body around the black panther monster several times, and then slowly tightened it.

Obviously, it wants to completely strangle the Black Panther monster with its own huge power.

"Roar!!"

The threat of death made the black panther monster keep roaring and struggling.

However, its body has been restrained and cannot move at all.

It could only watch helplessly as the giant python shrank its body bit by bit, slowly squeezing the air out of its body.

Three minutes later.

The black panther monster completely lost its breath.

In this life and death struggle, it lost.

The difference in size and strength means that it cannot make any mistakes.

Once the python seizes the opportunity, it will only end up becoming food.

"How could this happen? My mount actually lost?"

Billy Ruso frowned, looking a little ugly.

I thought the black panther was sure to win, but unexpectedly, he was defeated by the giant python in an instant.

Although the giant python is more powerful, it is really not suitable to be used as a mount.

You can't go out riding a snake in the future, right?

What does that look like?

It's so annoying!

"This giant python has probably activated its spiritual intelligence and knows how to use strategies." Margaret clicked her tongue in surprise.

She finally understood that the giant python did not use all its strength at first, but showed its weakness to the enemy and waited for the opportunity.

When the black panther thought he had seized the opportunity, he didn't know he had fallen into the python's trap.

The really powerful thing about the giant python is not its amazing strength, but the poisonous mist that has been hidden for a long time.

It's just that because the Black Panther is too fast and attacks from the front, the poisonous mist is difficult to hit.

Therefore, the python has been patient until the black panther has no way to avoid it, and then delivers the fatal blow.

It's really a terrifying intelligence!
