I am a quadrillionarire chapter 2588-If he failed, the loss would outweigh the gain.

That was 10 million lavish points!

This took David more than half a year to accumulate.

This was also the result of the help from the many powerful forces in Amber City.

Otherwise, it would take him years to accumulate so many lavish points.

Just when David returned to Earth to upgrade his mind power, Amber City of The Spirit Cage welcomed a man who hid his face.

Physically, he looked a bit like an old man.

This person was Sylvio.

It took more than two months for him to walk from Shea City to Amber City.

Sylvio had been looking for Elora in The Spirit Cage for more than half a year.

Right now, he had no idea what was going on outside: what Lufian did, or whether Lufian found the Robotias or the Soul Devourers.

He did not know any of this.

For Sylvio, the most important thing right now was to find Elora so he could decide what to do next.

Otherwise, he would not be able to determine his direction and he would not have a target. He would be just like a headless fly.

After standing in front of the city gate for a while, he did not sense Elora's aura, so he followed the queue and entered Amber City.

Sylvio moved very quickly within Amber City.

Only his shadow could be seen before he was gone in the next moment.

At this critical period, he had no intention of appreciating the local customs.

He did not stop along the way.

He also used his fastest speed on his journey.

He carried a map of The Spirit Cage with him, and after he went to a city, he would mark it with a cross.

The Spirit Cage was huge and there were hundreds and thousands of large and small cities and villages. If he wanted to find someone, it would take an astronomical amount of time just to travel through these places if he did not hurry.

Sylvio did not have time to waste.

He must find Elora as soon as possible and discuss ways to restrain Lufian.

Should they use Lucian's feelings for Elora to influence him or should they let David, a variable, suppress him?

They had to at least determine a direction so they could gather to form a force and work hard in this direction.

As he walked into the city, he sensed Elora's energy. By the time Sylvio arrived at the center of Amber City, an hour had passed.

Even with Sylvio's speed, it took an hour to reach the center. Moreover, it was just a straight path. This showed how big Amber City was.

This was one of the eight main cities of The Spirit Cage.

It was not unreasonable for it to have 108 giant city gates.

Countless people came in and out every day.

It was because there were too many people that Sylvio did not dare to be careless.

He had to make sure he did not miss any corner of Amber City.

It would be troublesome if he made a mistake and missed Elora.

Then, he would need to spend more time looking.

After walking around in the center of Amber City, Sylvio was ready to move on to the other side.

However, just as Sylvio took a few steps forward, he sensed a familiar energy.

Elora?

Sylvio was shocked and his eyes showed a look of surprise.

After more than half a year of searching, he finally found Elora.

He thought it would take him longer.

After all, the area he covered was not even one-tenth of The Spirit Cage.

He did not expect to find her so quickly.

This was a surprise to Sylvio.

Then, to prevent making mistakes, he detected it carefully once again.

This time, he was certain that it was Elora.

He was very familiar with Elora after hundreds and thousands of epochs of being together. He would not make a mistake.

He found Elora! Sylvio let out a sigh of relief.

If he could not find her, no one knows what Lufian would do to get Elora's whereabouts after he wiped out the Robotias and the Soul Devourers.

That guy's dual souls had been fused. He would not listen to anyone except Elora.
